Sunday P.M. by civil a/c Monday Augst 1, 1862 at
at 5 P.M. Chief mate went forward to call the
men to relieve the wheel and mast heads they
refused to come aft. Then went and called
them and they all came aft. They refused duty
on account of not having any thing in the meat
line to day as the Cook went off duty last
yesterday afternoon and none of them would
go in after being asked by the mate last
night and of course they could not expect
any thing if none of them would not go in the
galley but bread and molasses and water
however in the course of talking to them
Antone Seal became so insolent & saucy
just him in the riggin and gave him
24 stripes over 2 shirts he had on did
not hurt him much then as he was still
saucy and insolent put him in irons
and put him in the run for the night
Timed before he has broke the rules of the
ship by fighting and was let off without
punishment although he was insolent and
refused the other men went to their duty
let Antone out of irons after 4 hours
he promise to behave in future

Pleasant weather but a bad air since 2 days past most of the men have colds and very sore throat, mine came on yesterday afternoon and by dark I had a very sore throat and hardly slept any last night to day it is some better, and 2 or 3 new cases come on to day about this season every year there is such a spell of bad air begining up near the Coast in south Latt and works it's way as the season advances down to the Line as last year I notice it some earlier than this and further east - now the past week we have been off N. E & N of Abington Island from 25 to 50 miles in sight now bearing S, 25 miles I suppose 25 to 75 miles N there may be good air I have thought it did not extend far north I suppose its owing to dead insects or bait in the water last voyage I had same after leaving Paita bound off shore until I passed near 100 west Long, about 1 month earlier, salts as a physic appears best medicine The ships wake in the night white as snow
